

Roadshow Series: Face Your Surface

Roadshow at McGill University

Join us at the **Atomic Force Microscope (AFM)** introduction and hands-on session organized and presented by Anton Paar Canada and Microscopy and Imaging Lab to be held at the **McGill University** on **April 18th from 9:00 to 16:00**.

Come by for a quick bite, get introduced with AFM theory, work with the newly launched AFM and talk to your Product Specialists about your application. You can **bring your samples and test them with our ground breaking AFM technology at no cost!**

Please find below the agenda to be covered during this session.

Time	Topic
9:00 - 9:30	AFM Theory
9:30 - 10:30	Introduction to Tosca™ 400
10:30 - 11:00	Coffee Break
11:00 - 12:30	Tosca™ 400 Operation Demonstration
12:30 - 13:15	Lunch Break
13:15 - 14:45	Standard Sample Testing with Tosca™ 400
14:45 - 15:00	Coffee Break
15:00 - 16:00	Sample Testing with Tosca™ 400
