

## 2024 Thermal Analysis InfoDays Innovation Sharing and Networking Event

METTLER TOLEDO's Materials Characterization division invites you to join us for the 2024 Thermal Analysis InfoDays, to be held in Toronto and Montreal.

These sessions are designed specifically for the Canadian scientific community – including chemists, engineers, and other professionals – who seek to enhance their knowledge of thermal analysis techniques such as Differential Scanning Calorimetry (DSC), Thermogravimetric Analysis (TGA), Thermomechanical Analysis (TMA), and Dynamic Mechanical Analysis (DMA).

June 18, 2024 – Mississauga, ON

June 20, 2024 – Montréal, QC
